This record serves as a:

- Basis for planning your treatment and services;
- Means of communication among the physicians and other health care providers involved in your care;
- Means by which you or a third-party payor can verify that services billed were actually provided;
- Source of information for public health officials; and
- Tool for assessing and continually working to improve the care rendered.

This Notice tells you the ways we may use and disclose your Protected Health Information (referred to herein as "medical information"). It also describes your rights and our obligations regarding the use and disclosure of medical information.

Unsecured medical information means medical information not secured by technology that renders the information unusable, unreadable, or indecipherable as required by law.

THE METHODS IN WHICH WE MAY USE AND DISCLOSE MEDICAL INFORMATION ABOUT YOU.

The following categories describe different ways we may use and disclose your medical information. The examples provided serve only as guidance and do not include every possible use or disclosure.

- **For Treatment.** We will use and disclose your medical information to provide, coordinate, or manage your health care and any related service. For example, we may share your information with your primary care physician or other specialists to whom you are referred for follow-up care.
- **For Payment.** We will use and disclose medical information about you so that the treatment and services you receive may be billed and payment may be collected from you, an insurance company, or a third party. For example, we may need to disclose your medical information to a health plan in order for the health plan to pay for the services rendered to you.
- **For Health Care Operations.** We may use and disclose medical information about you for office operations. These uses and disclosures are necessary to run Kids' Doc in an efficient manner and provide that all patients receive quality care. For example, your medical records and health information may be used in the evaluation of services, and the appropriateness and quality of health care treatment. In addition, medical records are audited for timely documentation and correct billing.
- **Appointment Reminders.** We may use and disclose medical information in order to remind you of an appointment. For example, Kids' Doc may provide a written or telephone reminder that your next appointment with Kids' Doc is coming up.
- **Research.** Under certain circumstances, we may use and disclose medical information about you for research purposes. For example, a research project may involve comparing the surgical outcome of all patients for whom one type of procedure is used to those for whom another procedure is used for the same condition. All research projects, however, are subject to a special approval process. Prior to using or disclosing any medical information, the project must be approved through this research approval process. We will ask for your specific authorization if the researcher will have access to your name, address, or other information that reveals who you are, or will be involved in your care.
- **As Required by Law.** We will disclose medical information about you when required to do so by federal or Texas laws or regulations.
